Advisory Board

Leena Sankla

FFPH, FRSPH

Director of Public Health & Lifestyle Services

Leena is the co-founder and Director of Public Health & Lifestyle Services at Solutions 4 Health, a pioneering artificial intelligence, digital health and clinical healthcare services company.

She is a Board Director providing strategic lead for a large portfolio of public health services, including public health nursing 0-19 (25 SEND), digital health, integrated lifestyle services, smoking cessation, children and adult weight management services (Tier 1, 2 and 3), chronic disease self-management, sexual health, physical activity and falls risk assessment across the UK.

Leena is passionate about making a difference to the health and wellbeing of all sections of society, especially those who are disadvantaged - addressing the considerable challenge of health inequalities.

She is also deeply interested in sustainability, system transformation, meaningful innovation and the impact of digital disruption, particularly using AI.
